ROYAL ARTILLERY SPORTS.

On Tuesday in grand weather, the regimental Sports of the Royal Garrison Artil lery took place on the grounds of the United Service Recreation Club at Kowloom, in the presence of a fair gathering of officers and friends. Quite a number of ladies and civilians were also interested in the sports. The gunners turned out to a man, as did "H" Co. the Buffs, their stalwart Acting Sergeant Major, the 13th Rajputs -who looked for all the world, from gardening, owing to the variegated hues of their turbans—the Mahrattasin white, and scores of the Hongkong S. B. native artillerymen. Hospitality reigned supreme, and Col Chamier must have felt gratified at the attendance of the rative soldiers. The inner man was well looked after, Master Gunner Wilks, Master Gunner Little and the other W.O's and N.C.O's proving excellent hoats. The chief interest seemed to point to the mile, open to all, which was won by Lance Corpl Andrews with a bit up his sleeve. Quite a popular win. The tug of war between the Sikhs and Mahomedans was vastly entertaining. for the former to the jubilation of the Hindus scored over their Mahomedan

Is the quality of the beer supplied to our troops satisfactory ! On the whole that interogatory must be answered in the negative. As a fact, much of the ales, stouts and other beverages of a similar mature served out in the Army and Navy is not up to the mark, more especially in India, under the new regulations, and there is good reason for the complaints se often heard in this respect. It may therefore COLE PROPRIETORS of TAKASIMA, be timely in this special series of "Service OCHL HOJO, NAMAZUTA, SAYO, Requirements and How To Meet Them,"to SHINNEW and KAMIYAMADA 'Col- refer to the productions of a famous Scottish Browery whose liquor may be taken as examples of what the standard of beer and ale supplied for Service consumption should ba. First, a few words on a fact which Special stiention is invited to the fact should be borne well in mind. We hear a

good deal in these days about temperance in our Army, . In our opinion, the cause of by the Company, and is now being worked temperance, both is and out of the Army and Navy, will best be served by paying attention to the quality of the liquor, rather than by imposing burdensome restrictions as to licenses, or by introducing harassing legislative measures. To inculcate the necessity of purity in the wines, spirifs and beers placed before the public will be of more practical utility than the delivery of numberless so-called "temperance" lectures, advocating "abstinence or fantastic and unreasonable legislation. What is the desiderata of a really satis factory beverage for the Services? and we may incidentally say that what is good for the Army and Navy is certain to be good for civilians. Well the chief points in supplying beer to the troops are: first, that the beverage should be brawed solely from the very best quality of materials, and secondly. 816 that it should be as light as possible, con sistent with good keeping qualities, and s proper amount of favour. And here comes the objective of this article. We find after careful tests, and exhaustive enquiry, that all the desiderata of ideal ale and stout will be found in the catput of Mesars George Younger and Son, Ltd., of the Meadoward

Candleriggs Breweries, of Allos, N.B., the premises and methods of which may be fairly taken as a model of a premier British brewery. Who has not heard of the famous \* Revolver " Ale and Stout, which beyond a doubt meets the most pressing need of (GOUD FRIDAY) and MONDAY, the the day, sound, wholesome liquor, reliable in quality, perfect in flavour. It is a simple fact that the brews of this house, owing to a unique combination of the finest materials and a brewing and bottling system peculing IT is proposed to hold a Dinner of Mem- to itself, have gained the highest repute bers of the above Universities on not only throughout the Services, but

amongst the infinitely wider circle interested in those Services. Experience teaches that, for example, the "Revolver" Ale, guaranteed to be browed solely from malt and hops, has never been excelled for either quality or flavour. A more wholesome, stimulating and bealth-giving beverage could not possibly be found It has been with justice designated the Ques Grown (kinds) placed at the disposal "Soldier's Favourite," and well deserves be REDUCED to HALF A CENT per its popularity. The "Revelver" Ale and Stout not only satisfy the palate, but the eye. Brewing in these days is, as it were, an exact science. Referring to heredity in cancer, he said that examination of the records of 8,000 cases showed no evidence that the disease is inherited.

Accompanied by Terrible Itching-A Complicated and Most Distressing Case-Well-known Remedies Falled to Cure-Doctor Thought an Operation Necessary-Then

### CUTICURA PROVED ITS WONDERFUL EFFICACY

morning, three years ago, I was taken with a hard pain in my right aide. In two days I had an attack of pica (hemorhoids), bleeding and protruding. The doctor gave me some medicine and an ointment for them which helped me some but I had to keep using them all the time. Then I changed to the Premedy; but if I did not use it every day, I would get werse. The doctor said the only help for me was to go to a hespital and he operated on. At this time, about a year ago, I went to using the Servemedies. I tried them for four or five months but did not get much help for my piles. During this time serves would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These serves another would come. These sores changed to eczenz, accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an infamed condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Remedies. Boap and warm water in the morning, at noon, and at night, then used Cuticura Cintment on the irritated surfaces and injected a quantity of Cuticular Cintment on the Cuticular curs Cintment with a Cuticura Sup-pository Syrings. I also took Cuti-cura Resolvent Pills three times a day. It took a month of this treatment to get me in a fairly bealthy state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Outl-curs. The treatments I had tried took a Lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now, and I would not feel safe without them. J. H. Henderson, Hopkinton, St. Lawrence Co., N. Y.,
